FACTORY FIT EMV SOLUTIONS FOR ANY DISPENSER¹

EMV Upgrade Kits List Price

Starting at \$2,700 / Side

Pricing varies depending on existing model configuration.

¹Upgrade Kits Available for:

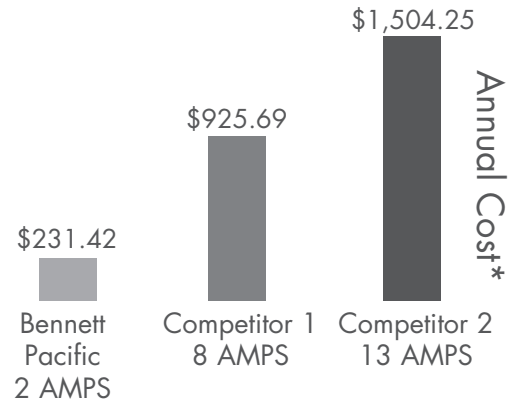

- Bennett Dispensers
- Wayne Ovation 1&2, Helix and Vista
- Gilbarco Advantage, Encore 300, 500, 500S and 700S

60% POWER SAVINGS

We've simplified the electronics in the upper cabinet of the dispenser, making them easier to service while increasing dispenser uptime. They pack a lot of power yet only draw 2 AMPS of current, resulting in 60% less power consumed while delivering 158 million instructions per second.

SB100 METER WON'T GIVE AWAY FUEL

A Pacific dispenser provides station owners peace-of-mind, knowing their dispensers are measuring fuel accurately. It stays true and consistent between calibrations.

**Note: Competitive content derived from most current available published information. Bennett makes no guarantee pertaining to the accuracy or availability of competitive information.*

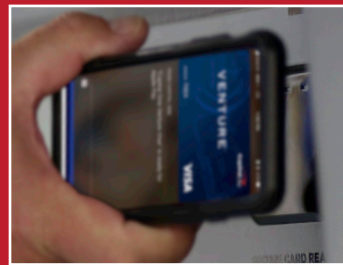

SAFETY FEATURES

The Pacific dispenser has the largest number of touch-free features for paying and activating the pump, providing customers with superior peace-of-mind when fueling. We recommend implementing touch-free features and sanitizing dispensers frequently to help keep customers healthy.

GRADE SELECT BUTTONS

The Pacific Grade Select Buttons use capacitive technology enabling the lightest touch activation.

NFC CONTACTLESS READER

Payment is activated when the smartphone or wearable device is within 1½" of the reader.

5-YEAR WARRANTY

In addition to the full three-year bumper-to-bumper limited warranty, Bennett covers select critical components for a full five-years.
